

# Our Story

Mighty Oak Technology was created in 1999 to help make using computers easier for chiropractors. Today, we develop and run our own cloud based practice management software. Chart Talk is used across the United States by chiropractic and multi-specialty clinics.

Mighty Oak Medical Billing Service is an extension of the idea that technology can be easy to use. Call us to talk about how **Mighty Oak can work for you!** 952.374.5550

*"We get to focus on our patients. [Mighty Oak] jumps through all those administrative hoops for us."*

## Mighty Oak Billing Service is the best choice for your bottom line

**Experience and Expertise** - Our staff has decades of billing experience working with insurance companies, and the legal entities you encounter everyday when providing treatment to your patients. Let our experience free you and your staffs' time so you can provide services to your patients. We work your insurance aging reports, so nothing slips through the cracks.

**Turnover Protection** - Finding and training qualified individuals to manage your clinic's insurance claims can be a challenge. When you use Mighty Oak Medical Billing Service, the clinic can focus on scheduling and providing care to your patients.

**Reduced Overhead Costs** - Mighty Oak Medical Billing Service saves on costs associated with managing employees. Compare our monthly tiered pricing with costs of a dedicated employee. In addition to focusing your staff on your patients needs, you get a great practice management software, unlimited email and text message appointment reminders, and a team of professionals managing your clinics A/R. We don't let insurance companies off the hook! For the value, Mighty Oak Billing Service can not be beat.

**Data Security** - IT concerns are a thing of the past. Your entire system can be accessed from any device, anywhere, at any time. You can use smart phones, tablets, and computers to run your software without ever needing to install a program or an app. Your data is maintained, secured, and backed up by professionals.
